## Capabilities Statement

**Alardin Development Corporation dba Remote Monitoring Technologies** is a Native American woman-owned Texas licensed private security contractor specializing in proactive solutions for real world problems using cutting-edge, future-ready, cost-effective IP-based technology and surveillance solutions for multi-location perimeter security, safety and site management.

Monitor (manage) your business or project from anywhere at any time via IP-based (or web-enabled) device such as a notebook PC or smartphone. Two-way audio communication.

Since no two situations are alike, our ability to integrate custom solutions tailored for specific project needs is invaluable.

Our areas of expertise include:

- **Mobotix IP camera solutions**
- **Mobile security solutions**
- **IP Audio / Video perimeter security (video verified monitoring)**
- **Home automation and structured wiring**
- **Wireless connectivity**
- **Solar power & LED lighting integration**
- **Biometric access control**
- **SIP telephony & VOIP communication**
- **Super Wi-Fi (Metro scale / wide-area deployment)**
- **RMTcam StreetSmart Solar Light Poles**
- **Control center management software**
- **IP devices, sensors and relay integration**
- **Site analysis and system design**
- **Custom solution integration (onsite fabrication shop)**
- **Ongoing service and maintenance agreements**
- **Contract projects**

**Realize 24/7 live security at a fraction of the cost.**

While video security solutions are passive and reactive; response to alarms and trigger events does not have to be - RMT is **proactive**.

Look to **Remote Monitoring Technologies** for solutions that:

- Provide video verification with real-time interaction to a central command center.
- Enhance productivity while reducing costs for onsite security guards.
- Decrease false alarms and *improve* police response.
- Allow customers to schedule monitoring times, predetermined alert management protocol.
- Enhance company-wide Employee Safety Programs.
- Provide voice/sound activated panic response for tense situations.

Our past and present customers include the Centers for Disease Control (CDC-mining safety division), EMX Inc., Dutra Materials, GALA Construction, Burlison Police Department, Burlison ISD, Gerdau, BOS Solutions, SPEC Building Materials, Big Bend Telephone Company.
